Description of Problem

Please include a detailed description of the issues, as well as a description of and a copy of any professional studies, citations or reports from government entities, recommended solutions, and any cost information or estimates. If additional space is needed, please attach.

Netsian Technologies worked on sighting in the Auditorium reflectors for the fire alarm system over the weekend. After they were complete they went to the office to check the main panel. They found the system off, the circuit breaker was still on and feeding power but the panel was dead. They were unable to provide an estimate without checking their price listings. After the main panel is replaced, they will be able to tell if any other equipment was affected. As of now, we're unable to provide fire protection to the High School. I will contact the SFB as soon as I have an estimate.

Project Category: Special Systems

Are any of the above-described issues in buildings or part of buildings that are leased to another entity, including a district sponsored charter school? N
